
# N.E.W.S.® Advanced Virtual Leadership™
## Crafting Winning Teams by Remote

Virtual work settings revolutionize the workplace by providing high level of responsiveness and flexibility. They represent a growing trend globally, especially following the global health crisis. Working by remote also creates many issues and challenges which must be addressed in order to enhance the team's performance. Hence one of the major challenges of modern work setting is virtual leadership.

The N.E.W.S.® Advanced Virtual Leadership™ learning solution presents the compelling mindset, eight powerful skills and eight tools around the globally distinguished N.E.W.S.® Compass™.

It is aimed to help leaders lead their teams as a whole unit in the modern virtual environment. These skills and abilities will support the modern leader harness all advantages of virtual work environment and leverage the potential that technology and virtual corporate platforms offer to leadership.

Executives, managers and team leaders who participate in AVL develop their leadership potential and learn to navigate their teams in a volatile, uncertain and complex environment, using exclusively designed leadership tools.

### The aim

## To lead high performance teams by remote

### How Does It Work?

**Preparation and Adaptation**
Virtual diagnostic meetings to adapt the learning and create real working life case studies

1 2 3

**Implementation**
Three 3,5-hour virtual interactive webinars with 2 to 5 working days intervals in between. Pre-work before each session, include micro-learnings & exclusively designed videos. Post-work activities after the sessions, include videos, leadership team meetings and specially designed assimilation activities.

**Analysis Phase**
Feedback and next steps.
Option for 1 or 2 individual coaching sessions for participants

### What Can You Expect?
