NEWS™ Change

Leading teams and organizations through periods of change requires a full range of communication and leadership abilities. In complex and chaotic situations, these skills become even more crucial.

This 2-day workshop designed particularly for managers working in organizations undergoing a change process. It assists them to handle and lead current and future periods of transition and change effectively, according to the **N.E.W.S.™** Model.

The **N.E.W.S.™** Model is a structured, organizing and focused model. The workshop is designed to practicing overcoming obstacles and achieving organizational goals and mission, especially in periods and environments where uncertainty is high.

This workshop includes a preparation meeting with the organization to understand their change process, main challenges and specific needs.

A half-day follow-up session after the training is highly recommended to ensure integration and effective use of the model and process.

Target Audience

This training is designed for managers in organizations undergoing a change process.
